

**International Conference**

 **Critical Issues for the** 

**Third Leap in Food  
Production at the Global  
Level**

**October 26,  
2022**

# About the event

## Jointly organized by:

Forum of the Future Institute  
World Bank  
International Fund for Agricultural Development  
Federal University of Viçosa  
AKSAAM Project

## Purposes:

- 1.** To show the role of **tropical bioeconomics in the debate on sustainable development models**, including themes that impact food safety, the social and technological inclusion of small and medium farmers in the world tropical zone..
- 2.** To propose alternatives for environmental challenges (deforestation, soil degradation and loss of biodiversity) to become strategic solutions to the planet and the welfare of society.
- 3.** To promote the **sharing of agendas** by central players in promoting sustainable development on **strategic issues**, particularly related to the landing of the available technological potential, not used by the productive sectors and whose value is not perceived by society.

 **October 26, 2022**

 **World Bank headquarters in Brasilia**

 **Participation Format: Virtual**

# Schedule

## **09:30 am – 10:00 am Opening**
